

We Baby the Whole Bunch!

The Grove Family Plan.

One-Stop Dental Care for the Whole Bunch

Whether your bunch numbers one or a dozen, we know you're looking for the highest quality, most convenient dental care available. Grove Dental is the answer. We provide the most complete range of dental services you'll find anywhere, all in one practice.

With our large staff of general dentists, specialists and hygienists, Grove can schedule appointments for you and your kids—often at the same time. *No extra driving! No extra waiting!* Convenient early morning and evening appointments that busy Moms and Dads will love.

Unlike some dental offices, we don't send you and your kids all over town when you need to see a specialist. Just look at all the services we have to offer:

- ✓ Special kids' exams by pediatric specialists: cleaning, fluoride and sealants
- ✓ Orthodontics, including Invisalign® braces
- ✓ General Dentistry for older teens and adults
- ✓ Periodontics for healthy gums and teeth
- ✓ In-Home and Zoom® Whitening for an instant white smile
- ✓ Oral Surgery for you or the kids right here in our office
- ✓ Cosmetic Dentistry, to bring out the best in your pearly whites
- ✓ Restorative Dentistry for enhanced function and appearance
- ✓ Crowns and bridges of tooth-colored porcelain to keep your smile intact
- ✓ Preventive Dentistry for healthy gums and a sparkling smile that can last a lifetime

Family-Friendly Care

for Every Stage of Life

Babies and Toddlers

Establish good habits early—Our dentists consult with you and provide advice on brushing and preventative care for little ones.

Start at 12 months old—We welcome children starting just after their first birthday. An early start on dental care heads off potential problems and builds a strong dental relationship between your family and us.

Children

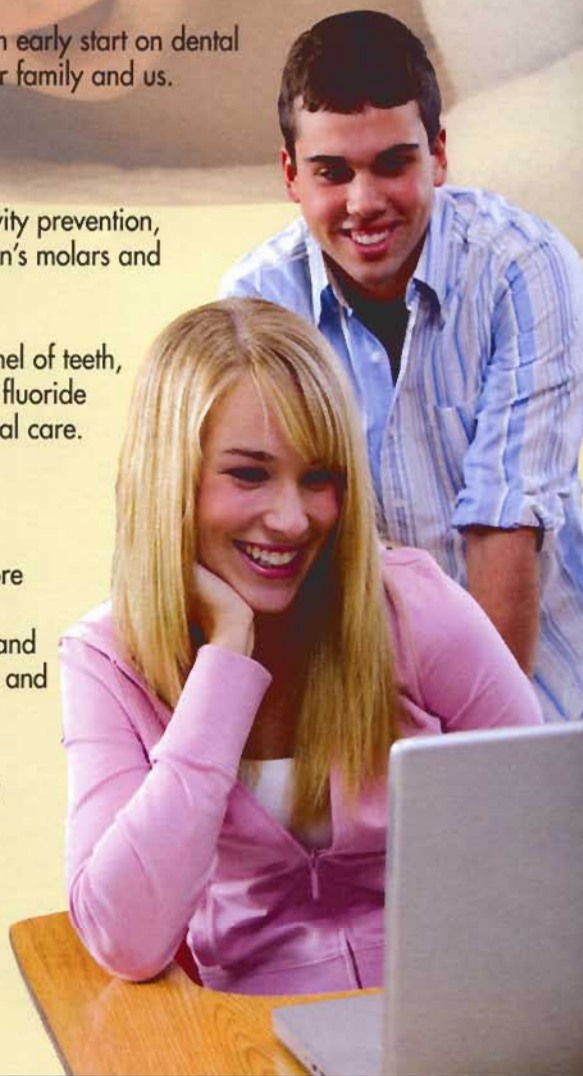

Sealants—One of the latest developments in cavity prevention, sealants bond to the chewing surfaces of children's molars and pre-molars.

Fluoride treatments—Fluoride hardens the enamel of teeth, making them resistant to decay. Periodic topical fluoride treatments should be a part of every child's dental care.

Pre-Teens & Teens

Orthodontics—Grove orthodontists can tackle your teen's crooked teeth, faster and more comfortably than you may think! Our orthodontists specialize in the latest orthodontic technology and equipment to correct crowded teeth, bad bites, spaces between teeth, and jaw alignment problems. With our clear braces and affordable payment plans, both you and your teen will have something to smile about!

Wisdom teeth—These molars often cause problems by coming in crooked or becoming impacted and infected. They can even reverse expensive orthodontic work. Your teen's Grove dentist can advise you and refer your child to one of our Oral Surgeons, right here on-site if necessary.

Adults and the Young at Heart

Straighter teeth—We offer Invisalign® invisible braces for older teenagers and adults, a new process that uses a set of clear, removable aligners to straighten teeth without metal wires or brackets. Total treatment time averages 9–15 months.

Periodontics—Regular dental visits are the best insurance for maintaining healthy gums. But, if a specialist is needed...no problem. We have a periodontist on site just for you.

A Whiter, More Beautiful Smile—We feature in-home whitening and Zoom® whitening for an instant white smile. Or ask about veneers to enhance short or worn teeth.

Endodontics—Grove's in-house endodontists provide root canals and other specialized services to patients who need them.

Restorative Dentistry, Implants & Dentures—If you've lost one tooth or a whole mouthful, Grove offers solutions that will restore your smile, your chewing ability and your comfort. Dentures, implants and veneers all are available to you, here at Grove

Dentistry for Adults, Kids & Great BIG Babies!

Gentle, comfy, easy care is our specialty. Since 1970, we've made our name by pampering our patients in a comfortable, caring environment. Our brand of gentle dentistry is just right for everyone, from tiny toddlers to big, strong adults.

For Every Smile in the House!

When you and your kids are on the same schedule at the same office, life gets easier. This is multi-tasking at its best. You can have your teeth cleaned while your daughter is visiting the orthodontist. Save time and enjoy the lasting benefits of a healthy smile!

For over 35 years, we've invested in growing and expanding our practice to provide the most comprehensive dental care possible. With our large staff of general dentists and specialists, Grove can schedule appointments at your convenience. We offer early morning, evening, and even Saturday appointments.

Grove Dental:

A Great Place to Be a Kid . . .

We love meeting your kids and making their visits fun. With Grove's hand-held video games, stereo headphones, sugarless lollipops and a treasure box of prizes, your kids will look forward to their dental visits!

Our pediatric specialists know what's best for your child's healthy smile: fluoride treatments, cavity-fighting sealants and "Brushing 101" lessons establish good dental health for life. We recommend child's first visit at 1 year of age. By establishing a routine of preventative care early, we can help your baby enjoy a lifetime of healthy teeth and gums.

Or a Grown-Up!

We don't just nurture your kids, we baby you as well. We are dedicated to your comfort (*and yes, you can use the games and headphones too*). We offer state-of-the-art equipment and the latest technology. Maybe you've seen television makeovers where cosmetic dentistry takes a smile from flawed to fantastic? Our expert dentists can offer you and your family the same dramatic, life-changing results.

We offer private treatment rooms, coffee, blankets, stereo headphones, even hand-held video games, all to assure your comfort. We even make payment easy—we offer cash discounts, flexible payment options and special offers. Check out our special offers at www.grovedental.com.
